

## BOWNESS ERRATA

BACK

Using 2 $\frac{3}{4}$ mm (US 2) needles cast on  
224 [236: 250: 264: 276: 288: 300] sts.

Work in g st for 5 rows, ending with **WS** facing for next row.

Change to 3 $\frac{1}{4}$ mm (US 3) needles.

Noting that chart row 1 is a **WS** row, now place charts as folls:

**Row 1 (WS):** K13 [19: 26: 33: 39: 45: 51], work next 22 sts as row 1 of chart C, (work next 30 sts as row 1 of chart B, work next 32 sts as row 1 of chart A) twice, work next 30 sts as row 1 of chart B, work next 22 sts as row 1 of chart C, K13 [19: 26: 33: 39: 45: 51].

**Row 2:** P13 [19: 26: 33: 39: 45: 51], work next 22 sts as row 2 of chart C, (work next 30 sts as row 2 of chart B, work next 32 sts as row 2 of chart A) twice, work next 30 sts as row 2 of chart B, work next 22 sts as row 2 of chart C, P13 [19: 26: 33: 39: 45: 51].

These 2 rows set the sts - 7 sets of sts in patt from charts, with edge sts in rev st st.

Keeping sts correct as now set, working appropriate rows and shaping as shown on chart B, repeating the 24 row patt repeat of chart A, and the 20 row patt repeat of chart C, cont until **52** rows have been completed, ending with **WS** facing for next row.  
152 [164: 178: 192: 204: 216: 228] sts.

Now repeating **chart rows 53 to 72 only throughout for chart B**, and keeping all other charts correct as set, cont as folls:  
Cont straight until back meas 37 [38: 39: 40: 41: 42: 41] cm, ending with RS facing for next row.
